Profile

Self-taught full-stack developer with hands-on experience in web and Android projects. Passionate about building responsive, scalable apps. Currently developing solutions through my startup SphereX. Seeking internships to apply and grow my skills

Experience

FOUNDER, SPHEREX

- Founded SphereX, a growing IT company focused on web and app development solutions for businesses.
- Established a professional presence on social media platforms for brand visibility and client outreach.
- Currently working on client-ready solutions, in-house product development, and expanding service offerings.

EARLY TECH EXPLORATION & SELF-LEARNING

- Designed my **first personal webpage** using HTML and inline CSS during school.
- Continued building small static websites to explore layout design, navigation, and media embedding.
- Developed interest in web technologies, which led to deeper learning through YouTube, online courses, and hands-on practice.
